Infection Prevention and Control in Dental Practice Course

Nationally recognised units of competency

HLTINF006 Apply basic principles and practices of infection prevention and control

RTO No: 45790

This course provides dental professionals and support staff with the essential skills and knowledge required to apply infection prevention and control procedures within a dental practice environment. The training focuses on maintaining a safe, clean, and hygienic workplace to minimise the risk of infection transmission between patients, staff, and visitors in accordance with workplace procedures, industry guidelines, and relevant health and safety requirements.

This course is suitable for dentists, dental assistants, dental hygienists, reception and support staff, and other personnel working within dental clinics and oral health environments. Upon successful completion, participants will have the knowledge and practical capability to implement effective infection prevention and control procedures and contribute to maintaining a safe and compliant dental practice environment.

Why Study with Right Choice Training?

Right Choice Training is a leading provider of Nationally Recognised Training Australia wide. Our courses are designed to meet current industry needs by incorporating real workplace case studies and best practices

Programs that give you the outcome needed to be effective at work and in your career

Fair and competitive course fees with state of art LMS. Programs delivered to suite your work requirements and lifestyle. Study anywhere at anytime

You can study at any time, any place, with unlimited trainer support, fast assessment and feedback

Start straight after enrolment!
No minimum course timeframe. You can complete the course as quickly as you choose but within the 3 months

How long does the course take?

We provide you with three (3) months to complete the course. There is no minimum timeframe for completion.

The course is self-paced so the hours of study vary from student to student and are influenced by many factors including the amount of time you are able to dedicate to your studies. That is why we give you six months and all the support you need. The rest is up to you!

Program Outline:

Training is delivered as an online self-paced study mode. The course is offered online through Learning Management System. This means students complete their course at their own pace, using an online student portal. Training delivery support may include face-to-face webinars, self-paced study, directed research, and online learning activities and tasks. On successfully completing the training and assessment, statement of attainment certificate will be issued

This course is available on a fee for service arrangement. The RTO's complaints and appeal procedure as well as other policies and procedures are available on Right Choice Training website under the learner support page.

Infection Prevention and Control in Dental Practice Course
